

Konftel 55 series

for your web meetings and conference calls

Konftel 55 and Konftel 55Wx are an easy-to-use series of flexible conference units with impressive, crystal clear sound thanks to the patented OmniSound® audio technology.

The Konftel 55 series is specially designed to be the hub of your communications. Connect your computer, mobile phone/tablet and desk phone for unimpeded meetings with superior sound quality. Moreover, VoIP calls can be bridged with calls via a desktop or mobile phone. Switch connections easily using the smart touchscreen that only displays the current connections.

The Konftel 55 series has a recording feature. Record calls or dictations on a memory card and play, save or share them. The units are easy to take with you and look just as good on a desk as in the conference room. The difference between the models is that Konftel 55Wx has Bluetooth® with support for wireless HD sound, a battery, and is prepared for extra microphones for large meetings. You decide which will be your favorite.

FEATURES COMMON TO THE KONFTEL 55 SERIES:

- Flexible connection options: computer, desk phone, mobile phone/tablet
- OmniSound® – superior sound quality with support for HD sound
- UC integration with Microsoft Lync/Skype for Business, Cisco Jabber and Avaya
- Color touchscreen
- Switch and combine connections via the touchscreen
- Headset connectivity
- Menu and quick guide in multiple languages
- Record meetings to a memory card
- Future-proof, free upgrading
- Two-year warranty

The Konftel 55

The hub of your communications

Konftel 55 is a highly flexible conference unit with superior sound quality for all your meetings at the desk, home office or in the meeting room.

The Konftel 55Wx

The wireless hub of your communications

Konftel 55Wx is the optimal conference unit, with superior sound quality for all your meetings at the desk, home office or in the conference room. Equipped with a battery, Bluetooth and prepared for extra microphones.

Connectivity

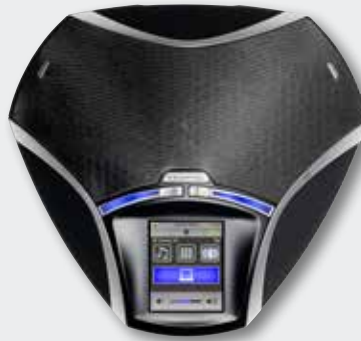

VOIP AND WEB MEETINGS

USB or wireless connection via Bluetooth® to computers for IP conferences and web meeting services. UC integration with Microsoft Lync/Skype for Business, Cisco Jabber and Avaya.

MOBILE PHONE & TABLET CONNECTION

Konftel 55Wx has Bluetooth® and can be connected wirelessly to other units equipped with Bluetooth®. Mobile cable available as accessory for the most common models.

HEADSETS

Continue using your headset, which is connected via Bluetooth® or 3.5 mm cable (accessory). Click on the symbol to switch between calls via headset or the conference unit.

DESK PHONE

Konftel 55/55Wx can be integrated with the PBX through a simple connection to the desk phone's audio connection with an adapter (accessory) or USB port.

OmniSound® – Superior sound quality

The patented OmniSound® audio technology guarantees that your distance meetings will have impressive, crystal clear sound in both directions, called full duplex. Hypersensitive microphones with 360° sound pickup and speakers provide powerful sound distribution to all participants. OmniSound® supports HD sound in calls over IP and the operator's mobile network. Also equipped with automatic echo suppression and static reduction, which minimizes annoying background noise.

Move freely around the room, talk, discuss and debate with retained sound quality that is entirely free from irritating sound clipping, damping or echoes. It's as close as you can get to natural sound.
